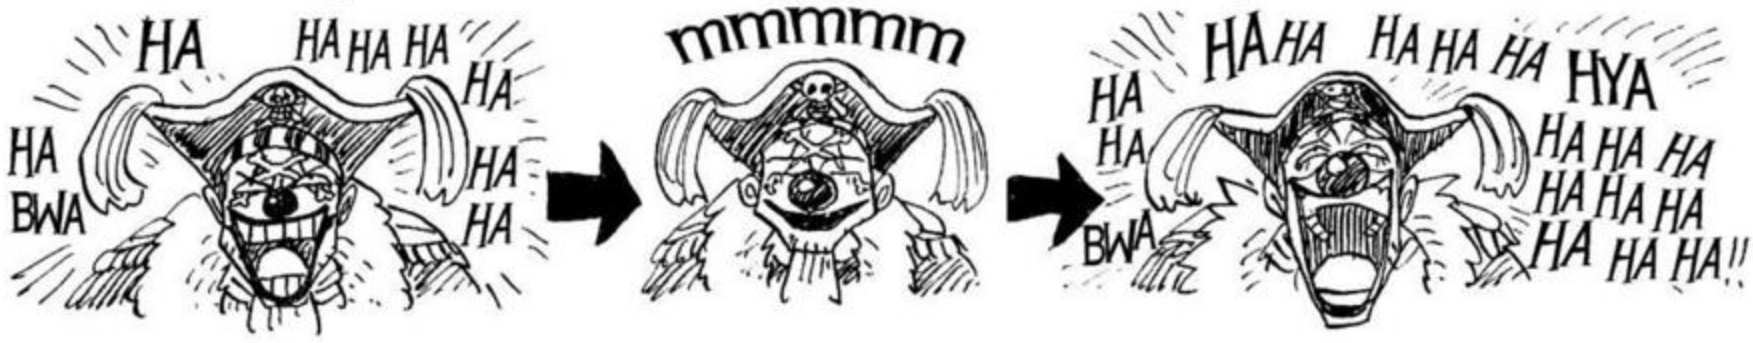
Q: There's gum-gum fruit, scatter-scatter fruit, and other kinds of devil fruit. I thought of a new one: "icky-icky fruit." It makes you so gross that nothing wants to come near you. VERY useful.

A: Okay, you eat it first.

Q: I think all of Oda Sensei's drawings of Buggy show him with his mouth open. I'd like to see one with his lips closed.



Q: When you were asked about Nami's measurements, you said you'd reveal them. When are you going to keep your promise!?

A: Heh Heh. I recruited a specialist to help me. His keen eye is infallible. Able to guess a girl's dimensions with just one look, he's the shady cook Sanji!!

Sanji: Hi, crap-jerk! I'm not a "shady" cook, I'm a "ladies" cook!! But you did right to call me. Leave this to me. Nami is lovely, isn't she? Great sense of style, too. Looks like... 34-22-34! Yes, definitely!! Oh, she's so cute. I hear she's a thief, but I like her...

A: There, I kept my promise. Thanks, Sanji. (krak) Owwww!

Nami: What do you think you're doing?

A: Nami! Darn! Were we wrong?

Nami: No, you were right. Not that it matters. It's not like things are gonna change size. See you later... (tmp tmp)

A: Hey!! She stole my wallet!! Aaaaaah!
